From the Board Chair, and President/CEO

This year, United Way of Central Washington invested \$1,114,800 in 67 local social service programs, and partnerships. The impact of their work can be seen in communities throughout Yakima and Kittitas Counties, in the improved health, education and financial stability of more than 115,000 people each year. Your support makes that happen.

More than 500 local companies, and their employees, contributed \$1,711,000 to United Way, and all the dollars raised stay here in Central Washington, supporting the work of 900+ volunteers and the agencies we fund.

This year, United Way collaborated with government, schools, community organizations and the business sector to advocate for solutions to our common issues. Together we reduced hunger, fought childhood trauma and helped children become more resilient, worked on our valley's affordable housing crisis, reduced homelessness, boosted families' financial stability, and much more.

Your United Way is thriving, thanks to the efforts of hundreds of volunteers. Campaign Chair Tony Klein and his team did an outstanding job of connecting with all the companies and telling the United Way story. Community Impact Chair Patty Dion and her team led the work of supporting collaborative efforts, and investing the dollars raised in effective local agencies. With your continued support we will continue fighting every day for the health, education and financial stability of every person in every community in Central Washington. Thank you!
